Vysanmukati Seminar guidance and environment Taobacco is the second major cause of death in the world. It is currently responsible for the death of one in ten adults worldwide (about 5 million deaths each year). If current smoking patterns continue, it will cause some 10 million deaths each year by 2020. Half the people that smoke today - that is about 650 million people- will eventually be killed by tobacco Acharya Sharma's eloquent explanations and scientifically tested experiments on the feasible ways of practising spirituality in daily life and on the therapies of Yagyopathy and fresh herbal medicines initiated by him - have shown significant effects on improving people's psychology and helped them come out of the clutches of tobacco, betel-leaf (paana and paana masala), cigarette (bidi) and liquor etc. No amount of medical advice, family's protest, prohibition laws, etc can have the kind of impact which spiritual treatment has.. Because, spirituality bears upon the core of the inner self which is the source and ultimate regulator of all mental tendencies and sentimental instincts - source The work of tree plantation is continuing specially at he time of annual Padyatra and under ideal village development yojna. The work of purification of the environment continues by way of Yagna. Stopping smoking can save environmental pollution. Environment day is celebrated on 5th June every year.
